

Gratitude Lyrics

By: Tony and Gale Cullen

Thinking of your providence which was once thought as time and chance
Cause that brought a circumstance: effects we couldn't deny

But now we see a bright light; a God of power, a God of might
Who controls the dark and light, and lifts the veil of doubt

Caught between the flesh and light, burning through the sacrifice
That is offered day and night to you our Father of Love

**Fill our hearts with gratitude
Help us see all that you do
And never let us take your mercy for granted!**

**Bridge the darkness of our hearts
With songs of praise and joyful shouts
Guide us to that holy mount where we can see your face!**

Narrow is the path we know that only Christ can lead us through
And we are shepherds with your Love shed abroad in our hearts

Help us see the brighter side of the pillar through the night
Tribulations that subside and leave us with your peace

In a moment we'll arise: a sea of glass that's full of fire
Transparent and full of eyes, within and without

**Fill our hearts with gratitude
Help us see all that you do
And never let us take your mercy for granted!**

**Bridge the darkness of our hearts
With songs of praise and joyful shouts
Guide us to that holy mount where we can see your face!**
